Re: U.S.A. v. Leon campbell
case No. 13-419 (DLI)

Dear you honor

with regard to Documents 258 on the Docket. I am making a complaint about agent Demarco, that you appointed to represent Mr. campbell without is consent, and that I am not requesting any discovery from this court that cannot inform me of the nature and cause of the action against me, but give me some gooblegygook and, assert that the court have Jurisdiction. So I dont know what you are denied, For.

All I need this court to do, is set the date For trial, next 30 days. There is monkey business going on in the court, and it not operating as it should. So the Judge has lost her official immunity, that Right.

The court can Find time to do all the unnecessary things, but cannot Fine times to Rules on the motion to dismissing the indictment that File Two years, For the pass Two years.. as well as covering up For AUSA nutz Reilly, ~~and not the Governments~~. I needed Jutice From you and if not you can Remove yourself From being a Judge on this case, that Right. Justices is what I needed.
